RADIO COMMUNICATION

Index to Volume 57—January to December 1981

Authors

Anderson, D., HB9BRQ
Amateur radio in the USSR 133
Bailey, A. L., G3WPO
The RX80 Mk2 (Parts 1-7) 32, 124, 224, 327, 518, 624, 721, 914
A fet dip oscillator for 1·6-215MHz with tone dip feature 1020
Barron, P. A., BSc, G3WTM, and Hart, P. J., BSc, G3SJX
Drake TR7 transceiver 522
Bauers, C. Neil, G4JUV
VHF cw add-on for ssb or fm 812
Belham, N. D. N., G2BKO
VFOs investigated 128
Borland, W. G., G3NXM
A two-element three-band beam 132
Braithwaite, I., G4COL
A simple add-on unit for counting audio frequencies 527
Brodribb, P. B., G3ONL
A capacitance-inductance meter 1118
Burnett, Peter, G4BLL
The Robot 800 speciality mode terminal 328
Cook, S. A. G., G5XB
Hellshreiber—what it is and how it works 320
Crawley, John L., G3LBX
A modern Q5er 716
Cridland, R. D., G3ZGP
How to consider a low-cost high-gain antenna 427
Curran, Michael, G4ITF, and Davey, Brian, G4ITG
Variable power-modification for the FT221R and FT225RD 918
Dilworth, I., PhD, G3WRT
Synthesized speech on GB3CE 414
Edwards, S., G8GEF
Modification to the control switching of the Icom IC240 transceiver 431
Entwisle, G. V., G3MXT
The G3MXT third-method Mk2 and polyphase Mk2 ssb generators 1112
Field, D. I., G3XTT
DX operating—an introduction 151
Gannaway, J. N., DPhil, G3YGF
The effects of preamplifiers on receiver performance, and a review of some currently available 144MHz preamplifiers (Part 1), (Part 2) 1026, 1120
Tropospheric scatter propagation 710
Garrett, Gerald, G5CS
Why the French "R" valve 158
Greed, P. T., G3MQD
Orbital predictions for UOSAT 814
Hart, P. J., BSc. G3SJX
The NEC CQ-R700 hf receiver 417
Heaton, R. V., G3JIS
Going hf mobile—some experiments in vehicle suppression methods 920
Hodgkins, J. E., G3EJF
Improving the selectivity of the FRG7, a simple approach 433
Hopkins, T. P., MSc, G8TYY
Portable antennas for 432MHz 1117
Horwood, P. J., G3FRB
Feed impedance of loaded λ/4 vertical antennas and the effects on earth systems 911
Hum, Jack, G5UM
A dissertation on the delights of duplex 1041
Jessop, G. J., G6JP
Simple wideband preamplifier 131
Langner, Richard M., G8JLE
The "JULIE" modification for reception of fast-scan tv 720
Lapthorn, R., BEng, G3XBM
A vlf up-converter for shortwave receivers 526
Martinez, Peter, G3PLX
Amtor—a progress report 813
Matthews, J. R., G3WZT
The astronomy of meteor scatter 424
Mays, Les, G4HHS
Safe tune-up with the FT7 715
Morris, John, G4ANB, and Stevens, Roy, G2BVN
The IARU Region 1 Conference 616
Noeding, J. M., LA8AK
A simple and sensitive field strength meter 811
Oakley, A. J., G4HYD
Phase-shift monitor—an aid to tuning rtty 324
Price, Steven, G4BWE
The G4BWE audio filter 1016
Raddatz, Jürgen, DL3ZK
Passages through the earth's shadow of AMSAT-Oscars 7 and 8 in 1981 912
Rayer, F. G., TEng(CEI), G3OGR
LED indicating wavemeter for 1·5-190MHz 136
Rees, H. W., G3HWR
The Cambridge antenna noise-bridge kit 419
Richards, Colin, GM2CR
The ten-turn "chopstick" helical for satellite work 528
Roscoe, J. B., G4QK
Twenty metres long 430
RSGB Microwave Committee
A high-quality uhf source for microwave applications 906
Skillington, F., G4DFU
An inexpensive mast for a lightweight beam 432
Smith, T., G4FAI
CQ test QRP HA 447
Stancey, G. P., G3MCK
An easy method for determining grey-line bearings 623
Sterry, R. C., G4BLT
Converting the Icom IC240 to 24 channels 922
Sweeting, M., BSc, PhD, FBIS, G3YJO
UOSAT—the AMSAT scientific and educational amateur spacecraft 134
Theasby, G. T., G8BMI
An external battery pack for the Trio 2300 428
Underhill, M. J., MA, PhD, Grad IERE, G3LHZ
Simple quiet tuning and matching of antennas 420
Varney, Louis, CEng, MIEE, AIL, G5RV
HF antennas in theory and practice—a philosophical approach 808
Wilson, J. F., MSc, G3UUT
A 70, 144 and 432MHz interference filter for Band 2 fm receivers 422
Wood, A. F., TEng(CEI), MITE, G3RDC, and Wood, J. L., G3YQC
Microwave Modules MC435/600 atv converter 718

Clubs and nets

Alresford Wireless Club 614

Meteor scatter, The astronomy of
J. R. Matthews, G3WZT....424
Passages through the earth's shadow of Amsat-Oscars 7 and 8 in July 1981
Jürgen Raddatz, DL3ZK....912

Phase-shift monitor – an aid to tuning rtty
A. J. Oakley, G4HYD....324
Portable antennas for 432MHz
T. P. Hopkins, MSc, G8TYY....1117
QSer, A modern
John L. Crawley, G3LBX....716
RX80 Mk2 (Parts 1-7)
A. L. Bailey, G3WPO....32, 124, 224, 327, 518, 624, 721, 914
Simple add-on unit for counting audio frequencies, A
I. Braithwaite, G4COL....527
Simple quiet tuning and matching of antennas
M. J. Underhill, MA, PhD, Grad IERE, G3LHZ....420
SSB generators, The G3MXT third-method Mk2 and polyphase Mk2
G. V. Entwisle, G3MXT....1112
Synthesized speech on GB3CE
Ian Dilworth, PhD, G3WRT....414
Ten-turn "chopstick" helical: a high-gain antenna for satellite work
Colin Richards, 9M2CR....528
Tropospheric scatter propagation
J. N. Gannaway, DPhil, G3YGF....August front cover, 710
Twenty metres long
J. B. Roscoe, G4QK....430
Two-element, three-band beam, A
W. G. Borland, G3NXM....132
VFOs investigated
N. D. N. Belham, G2BKO....128
VHF cw add-on for ssb or fm
C. Neil Bauers, G4JUV....812
VLF up-converter for shortwave receivers, A
R. Lapthorn, BEng, G3XBM....526
Wavemeter for 1·5-190MHz, LED indicating
R. G. Rayer, TEng(CEI), G3OGR....136
Wideband preamplifier, Simple
G. J. Jessop, G6JP....131
70, 144 and 432MHz interference filter for Band 2 fm receivers, A
J. F. Wilson, MSc, G3UUT....422

"Technical topics" items

Antenna(s)
active, improved....333
Beverage....1126
car radio/144MHz....140
direction indicator....630
groundplane....626, 927, 1033
groundplane, multi-band....927
log periodic, stretched....926
loop, multi-turn....820
loop, polygonal....141, 819
rhombic (420MHz)....1126
slotted-cylinder....927
"stretched" (extended-aperture)....530, 926
trimming....142
twin-delta loop array....819
unidirectional driven arrays (ZL-Special, HB9CV)....925
Verticals....235, 627
Verticals without radials....235, 627
VK2ABQ, modified....630
W8JK, new look at,....925
Antenna matching unit, amateur bands....1034
Antenna matching unit, wide range....818, 1034
Antenna radiation patterns, effects on....1033
Audio filters, cw/notch, tunable....1032
Balun transformers....723
Bath-tub, reliability curve....435
Batteries and battery belts....436
Batteries, lead-acid, sulphation....725
Batteries, nicad (see nicad batteries)
Battery-saving, pll filter....43
Bench-clamp, low-cost....1125
Capacitance measurement with ohmmeter....145
Capacitors, chip....44
Capacitors, for shunt-fed amplifiers....629, 928
Capacitors, variable, cleaning....234, 438
Chip capacitors....44
Coaxial cables, neglected factors....1034
Coaxial cables, weather proofing....145, 1034, 1035
Coaxial connectors....630, 1035
Coaxial connectors, soldering....438
Coils, high-stability....531
Constructor or consumer?....812, 1124
DC-dc converter, vmos....144
Defence hf communications....929
Defence equipment, reliability....331
Direct-conversion receivers, paging....817
Direct-conversion receivers, Russian....628
Direct-conversion receivers, vhf/uhf....141
Direct-conversion ("Third-method") transceiver....816
Direction-finding, 144MHz mobiles....435
Earth-leakage circuit breakers....434, 628
Earth-leakage circuit breakers, interference filters....628
Electret microphones, using....334, 438, 723
Electromagnetic pulse (emp)....929, 1126
Energy (power) sources....725
Fault-tracing, in-circuit....233
Frequency-meter, simple ac....140
FT101, modifying for 10MHz....436
Fuse indicator....140
Gasfets, microwave....46
HF transmitters, solid-state or valve?....532, 929
Human factors....438
Hybrid microelectronics....1127
Icom 730....1124
IC regulators, high-current....334
IC sub-systems, a.m. radio....438
IC sub-systems for home-built receivers....722
IEE wiring regulations....725
I.F. breakthrough, 6MHz....437
Inductors, high-stability....531
Inflation and equipment costs....817
Ionospheric basics....1035
Ionospheric midnight trough....535
Ionospheric outlook....1127
Keyer, semi-break-in....45
"KISS"....331, 1124
Law of large numbers....1126
Lightning protection....1126
Man-equipment interfacing....438
Meteor scatter....629, 928
Microcomputers....42
Microphones, electret, using....334, 723
Microphones, improving low-cost....140
Microphones, plastic-film....46
Microprocessors in transceivers....42
Microprocessors in swr meters....43
Microwaves, using rain gain....333
Mixer, harmonic, 1·8MHz....144
Mixers, wide-dynamic range....434
Mobile, ssb or fm?....1036
Morse-code tutor, modifying....726
Nicad batteries, charging....928, 1032
Nicad batteries, "zapping"....925
Nostalgia corner....1035
Oscillator phase-noise....142
Oscillator, vmos, 5W....332
Parasitic oscillation....532
Passive pre-selection filtering....331
PCBs or point-to-point wiring?....722, 1125
Petrol-electric generators....724
Petrol-electric generator, d-i-y....629
Phase-noise, oscillator, dc receivers....142
Plessey Research, Caswell....46
Point-to-point wiring....722, 1125
Polarization, vertical on hf....234
Positive-temperature-coefficient (ptc) devices....236, 438
Power (energy) sources....725
Power supply (12V) philosophy....142
Power supply, 30A....335
Prescaler, 500MHz....722
Prescaler, 1·3GHz....435, 628
Production engineering, importance of....232
Propagation study, sampling timer....1128
Propagation, vhf/uhf, Arctic....335
QRP, experimenting with....1125
QRP transceiver, four-transistor....46
QRP transmitters, simple valve....533
Rain gain, microwaves....333
Receivers, preselection filtering....331, 722
Reliability....232, 233, 331, 434
Reliability, bath-tub syndrome....435
Safety, earth-leakage, circuit breakers....434
radiation exposure....45
SAW resonators....817, 1128
Semi-break-in keyer....45
Semiconductor failure mechanisms....232
S-meters, how accurate?....234
Speech processor, simple....1126
Sporadic-E....533
Stripline power amplifiers....629, 928
Strong-signal performance....531
"Superluminal" radiation....723
Surface acoustic wave (saw) devices....817, 1128
SWR, how important?....46
Tape recording, opportunity lost?....437
Television interference, cable television (144MHz)....930, 1128
Third-method direct-conversion transceiver....816
Timer for path sampling....1128
Tips and topics....145, 438, 535, 820, 930, 1034, 1128
Transceiver, complex....1124
Transistor power amplifier construction....532
Transistors, rf power, plastic-packaged....532
Transmitter, the one-hour....333
Transmitter, power mosfet....332
VFO drift....44
VFO keying, frequency-shift....234
VMOS dc-dc converter....144
VMOS oscillator, 5W....332
Voltage-regulators, ic, high-current....334
Voltage-regulators, ic, low drop-out....438
Voltage-regulators, ic, 7660....534
Voltmeter, expanded-scale....535, 726, 930
VXO, 14MHz....924
Wiring regulations, IEE....725
10, 18 and 24MHz, getting ready for....45
10MHz, home-brew?....437
10MHz, modifying the FT101....436
18 and 24MHz, coping with....924
